

Annex Products Pty Ltd, Australia, declares that the product "Motorcycle USB Charger" with SKU QLA-MOT-USB, complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced technician for help.

CAUTION: Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Annex Products Pty Ltd, Australia, declares that the product "Motorcycle USB Charger" with SKUs SKU: QLA-MOT-USB, are in compliance with EMC Directive (2014/30/EU). The CE certificate of conformity can be found at: quadlockcase.com/compliance

POWERING YOUR ADAPTOR

NOTE. We highly recommend installation carried out by a qualified mechanic or technician

DIRECT TO BATTERY

INPUT - BATTERY
12-24V DC/2.5A

OUTPUT - USB-A
3.6V-6.5V/3A, 6.5V-9V/2A, 9V-12V/1.5A

TO SAE PORT

INPUT - SAE
12-24V DC/2.5A

OUTPUT - USB-A
3.6V-6.5V/3A, 6.5V-9V/2A, 9V-12V/1.5A

DUST AND WATER

We recommend you mount your charger with USB port facing down, to allow water and dirt to drain.

Whilst the USB charger is IP66 rated against dust and water ingress, taking this simple step while mounting the charger will increase its lifespan and your overall user experience.

MOUNTING OPTIONS

The diagram below shows the installation options for optimal performance from your vibration dampener
